EXPERIENCE

UX Design Intern / Mastercard

June '18 - August '18

Enhanced internal design system through the creation of various styles of responsive and compliant assets in Sketch.

Participated in multiple team-wide design-thinking sessions to assist clients in creating user-centered products.

Restructured documentation process for product design-thinking sessions to increase productivity, comprehension and discoverability.

Research Assistant / CMU HCII ArticuLab

September '17 - May '18

Led the UI/UX design of a web-framework targeted toward Amazon MTurk users to promote the production of reliable data.

Created sketches, lo/hi-fidelity prototypes, and conducted A/B user-testing.

Presented research at the annual School of Computer Science research symposium.

UX Design Intern / Click

June '17 - August '17

Designed and prototyped interactions across extensive social media application, using Sketch and InVision.

Helped standardize visual design across mobile and web platforms.

NOTABLE PROJECTS

Travel on the Go / Data-Driven Environmental Display

AgroAmigo / Mastercard Intern Innovation Challenge

CUCUI / Conversational User Interface
